

# Remote Curriculum

## Year 9 Maths: Sets 3 and 4

### How it Works:

- Find the correct week commencing row.
- Find today's day - There are 2 different lessons in each day and GCSE Examination Resources – you won't run out of work.
- Choose a lesson – hold ctrl and click the chosen link.
  - If you don't recognise the work, it appears too difficult or the link doesn't load;
    - Try another task – look at the previous/next lesson or look at other days.
- Some lessons have links to PowerPoints and other resources beneath the video and/or Starter Quiz (LSQ)
- Complete any starter quizzes.
  - Write your answer down
  - Mark your answers and write down any corrections
- Watch the videos and take notes.
- Pause if/when instructed to do so to answer questions or respond.
- Complete and go onto the next one.
